IAS 39 - Accounting for Financial Instruments Dec 26 2021 Inhaltsangabe:Abstract: Financial markets have developed extremely in volume and complexity in the last 20 years. International investments are booming, due to the general relaxation of capital controls and the increasing demand of international diversification by investors. Driven by these developments the use and variety of financial instruments has grown enormously. Risk management strategies that are crucial to business success can no longer be executed without the use of derivative instruments. Accounting standards have not kept pace with the dynamic development of financial markets and instruments. Concerns about proper accounting regulations for financial instruments, especially derivatives, have been sharpened by the publicity surrounding large derivative-instrument losses at several companies. Incidences like the breakdown of the Barings Bank and huge losses by the German Metallgesellschaft have captured the public s attention. One of the standard setters greatest challenges is to develop principles applicable to the full range of financial instruments and implement structures that will adapt to new products that will continue to develop. Considering these aspects, the focus of this paper is to illustrate how financial instruments are accounted for under the regulations of the International Accounting Standard (IAS) 39. It refers to the latest version, Revised IAS 39 , which was issued in December 2003 and has to be applied for the annual reporting period beginning on or after January 1. 2005. First, the general regulations of this standard are demonstrated followed by special hedge accounting regulations. An overall conclusion that points out critical issues of IAS 39 is provided at the end of the paper. IAS 39 is highly complex and one of the most criticized International Financial Reporting Standards (IFRS). In many cases, the adoption of IAS 39 will lead to significant changes compared to former accounting regulations applied. Therefore the paper is designed to provide a broad understanding of the standard and to facilitate its implementation. UPSC IAS Prelims Paper 1 & 2 General Studies 10 Year-wise Solved Papers (2020 - 11) 2nd EditionSep 22 2021

What Ails the IAS and Why It Fails to Deliver Jun 19 2021 An unorthodox and maverick administrator, the author worked in top policy positions, but the system rejected the reforms that he advocated. In his career he followed the economic philosophy of 'socialism for the poor and free market for the rich'. However, the political and administrative system in India seemed to believe in 'indifference to the poor and control over the rich to facilitate rent seeking'. The book is full of anecdotes ranging from how the author resisted political corruption that led to the Prime Minister's annoyance to a situation when the author himself 'bribed' the Chief Minister to scrap oppressive laws against tribal women. As Joint Secretary, Minorities Commission, the author exposed the communal bias of the district administration in handling riots in Meerut; he was punished for bringing to light the killing of innocent Muslim women and children by the police. When Bihar became a 'failed state' during the Lalu Prasad Yadav era of 1990–2005, the author did not hesitate in rebuking the Chief Secretary who was his senior in service, and accused IAS officials in Bihar of behaving like English-speaking politicians. Despite their high integrity, hard work and competence, IAS officials do not exercise sufficient control over the field staff who collude with the junior staff in reporting false figures on hunger deaths, malnutrition and usage of toilets, leading to erosion of accountability. Not only do many welfare programmes such as NREGA, ICDS and PDS have design flaws, governance in India at the state and district levels is also quite weak, manifesting itself in poor service delivery, uncaring administration, corruption, and uncoordinated and wasteful public expenditure. Analysing the present Indian situation, the book suggests policy changes in all cross-cutting systemic issues such as the role of politicians, tenure, size and nature of Indian bureaucracy, accountability, monitoring of programmes and civil service reforms, which will transform individual competencies of IAS officers into better collective outcomes.

The IASB's efforts are paying off as more and more countries around the globe either adopt IFRS as their national standards, or adjust local standards in alignment. A working understanding of IFRS application is becoming essential, even as the rules continue to evolve. This book provides full coverage of the latest standards and thorough guidance for implementation. Review the latest IFRS rules and standards Apply guidelines and best practices appropriately Gain expert insight on IFRS interpretation and implementation Ensure compliance and verify completeness Uniform financial reporting reduces the costs of financial statement preparation for multinational companies, and streamlines the assessment of business results. As the standards themselves evolve, so must practitioners' understanding of how to apply them correctly in real-world cases. Wiley IFRS 2017 offers a complete, up-to-date reference to help you apply and comply with the latest international standards.

Financial Reporting in the Pacific Asia Region Mar 29 2022 There is a dearth of good books on accounting in China, East Asia and Southeast Asia. This book makes a valuable contribution towards filling the gap. The chapters in Part I of the book deal with the cultural influence and economic significance of East and Southeast Asia, and the interrelationships between these matters and accounting in Pacific Asia. Part II comprises chapters on accounting in individual countries (comprising China, Japan, Korea, Taiwan and Southeast Asia), written by academics who work and research in these countries. In particular, the authors focus on the extent of the harmonisation of domestic standards with international accounting standards and on the development of the accounting profession. Part III deals with the problems of and prospects for accounting harmonisation in the region.
