### how to wire lights in series basic electrical wiring installation

Aug 11 2021 another major defect of series lighting circuit is that as all lamps or bulbs are connected between line l and neutral n accordingly if one of the light bulb gets faulty the rest of the circuit will not work as the circuit will be open as shown in fig below here you can see there is a cut in the line wire connected to lamp 3 so the bulb is switch off and the rest circuit is working
