Athenaze Jun 26 2019 Since its publication in 1990, Athenaze: An Introduction to Ancient Greek has helped tens of thousands of students learn classical Greek. Building on the bestselling tradition of previous editions, the long-awaited third edition combines the best features of traditional and modern teaching methods. It provides a unique course of instruction that allows students to read connected Greek narrative right from the beginning and guides them to the point where they can begin reading complete classical texts. James Morwood, editor of the Oxford Grammar of Classical Greek and the Pocket Oxford Classical Greek Dictionary, brings his expertise and years of teaching experience to this revision. Carefully designed to hold students' interest, the course begins in Book I with a fictional narrative about an Attic farmer's family placed in a precise historical context (432-431 B.C.). This narrative, interwoven with tales from mythology and the Persian Wars, gradually gives way in Book II to adapted passages from Thucydides, Plato, and Herodotus and ultimately to excerpts of the original Greek of Bacchylides, Thucydides, and Aristophanes' Acharnians. Essays on relevant aspects of ancient Greek culture and history are also woven throughout.

Oxford Latin Course Oct 03 2022 Designed for North American students, this special version of the Oxford Latin Course combines the best features of both modern and traditional methods of Latin teaching, providing an exciting, stimulating introduction and approach to Latin based on the reading of original texts. In this four-volume North American edition, the order of declensions corresponds to customary U.S. usage, and the spelling has been Americanized. In addition, it offers full-color illustrations and photographs throughout Parts I and II and an expanded Teacher's Book with translations for each part. Parts I-III (now available in hardcover editions) are built around a narrative detailing the life of Horace, now based more closely on historical sources, which helps students to get to know real Romans--with their daily activities, concerns, and habits--and to develop an understanding of Roman civilization during the time of Cicero and Augustus. Part IV (paperback) is a reader consisting of extracts from Caesar, Cicero, Catullus, Virgil, Livy, and Ovid. The second edition of the Oxford Latin Course has been carefully designed to maximize student interest, understanding, and competence. It features a clearer presentation of grammar, revised narrative passages, new background sections, more emphasis on daily life and on the role of women, a greater number and variety of exercises, and review chapters and tests. Each chapter opens with a set of cartoons with Latin captions that illustrate new grammar points. A Latin reading follows, with new vocabulary highlighted in the margins and follow-up exercises that focus on reading comprehension and grammatical analysis. A background essay in English concludes each chapter. Covering a variety of topics--from history to food, from slavery to travel, these engaging essays present a well-rounded picture of Augustan Rome. The Oxford Latin Course, Second Edition offers today's students and teachers an exceptionally engaging and attractive introduction to the language, literature, and culture of Rome--one that builds skills effectively and is exciting to use.

Understanding Second Language Acquisition 2nd Edition - Oxford Applied Linguistics May 18 2021 In the 30 years since Rod Ellis first published the award-winning *Understanding Second Language Acquisition*, it has become a classic text. This new, fully updated edition continues to provide an authoritative and highly readable introduction to key areas of theory and research in second language acquisition. Ellis presents a comprehensive overview of the different theories in this field and examines critical reactions to them. The book reflects recent trends in looking at cognitive and social aspects of second language acquisition, as well as examining the roles played by implicit and explicit instruction in language learning. "An excellent and much-needed, in-depth review of the research on how children and literate adults learn a second language. Ellis provides a sound knowledge base for language teachers and beginning graduate students in applied linguistics, focusing on relevant findings of research on second-language learning by children and literate adults in both naturalistic and instructed contexts." Elaine Tarone, Director of the Center for Advanced Research on Language Acquisition, University of Minnesota Additional online resources are available at www.oup.com/elt/teacher/understandingsla Rod Ellis is the Distinguished Professor of Applied Language Studies in the School of Cultures, Languages and Linguistics in the University of Auckland. Show and Tell, Level 3 May 30 2022 Creating young thinkers with great futures. Show and Tell taps into children's natural curiosity, asking a question such as "who makes you happy?" or "what do our senses tell us?" as the focus for each unit. Activities encourage children to explore the question while learning the language they need to think and talk about it. End-of-unit class projects consolidate learning and encourage children to work collaboratively. Opportunities to "Show and Tell" allow them to present their projects in class or at home, and to talk about what they have learned - in English! Stories, hand-eye coordination practice and letter formation activities lead to reading and writing simple sentences. Problem-solving activities encourage children to think critically and creatively. Values lessons teach children how to behave both inside and outside the classroom.
