Born to Build Oct 31 2019 People will ask you throughout your life, "Where do you work?" and "What do you do?" They never ask you, "What are you building?" When conversations change to "What are you building?" the world will change. Written for anyone trying to figure out how to make the most of their lives, *Born to Build* seeks to inspire entrepreneurs and ambitious, self-motivated people to build something that will change the world. A builder's venture could be a small business that grows into a mammoth enterprise, a thriving new division in an existing company, a nonprofit, a social enterprise, a church, a school — anything that creates economic growth and makes a lasting impact on society. *Born to Build* is written by Gallup Chairman and CEO Jim Clifton and Sangeeta Badal, Ph.D., Principal Scientist for Gallup's Entrepreneurship and Job Creation initiative, and is grounded in years of research. This book goes beyond the conventional economics-based business training and instead offers a uniquely psychological approach to venture building. It gives readers the tools and techniques they need to understand who they are, what motivates them and what they can build — and how. By following the practical steps in *Born to Build*, readers will have the tools to build a sustainable and profitable venture of any size from scratch. Central to the book is a code that allows readers to take Gallup's Builder Profile 10 (BP10) assessment, which identifies their innate talents and motivations and shows them how to make the most of their talents to build a successful enterprise.

feed a third world village. You don't need to toil away in the gym for a couple of hours per day, doing tons of sets, supersets, drop sets, giant sets, etc. (As a matter of fact, this is a great way to stunt gains and get nowhere.) You don't need to grind out hours and hours of boring cardio to shed ugly belly fat and love handles and get a shredded six-pack. (How many flabby treadmillers have you come across over the years?) You don't need to completely abstain from "cheat" foods while getting down to single-digit body fat percentages. If you plan cheat meals correctly, you can actually speed your metabolism up and accelerate fat loss. In this book you're going to learn something most guys will never know: The exact formula of exercise and eating that makes putting on 10 to 15 pounds of quality lean mass a breeze...and it only takes 8-12 weeks. This book reveals secrets like... The 6 biggest myths and mistakes of building muscle that stunt 99% of guys' muscle gains. (These BS lies are pushed by all the big magazines and even by many trainers.) How to get a lean, cut physique that you love (and that girls drool over) by spending no more than 5 percent of your time each day. The 4 laws of muscle growth that, when applied, turn your body into an anabolic, muscle-building machine. You'll be shocked at how easy it really is to get big once you know what you're doing... How to develop a lightning-fast metabolism that burns up fat quickly and leaves you feeling full of energy all day long. The carefully-selected exercises that deliver MAXIMUM results for your efforts, helping you build a big, full chest, a wide, tapered back, and bulging biceps. A no-BS guide to supplements that will save you hundreds if not THOUSANDS of dollars each year that you would've wasted on products that are nothing more than bunk science and marketing hype. How to get shredded while still indulging in the "cheat" foods that you love every week like pasta, pizza, and ice cream. And a whole lot more! The bottom line is you CAN achieve that "Hollywood hunk" body without having your life revolve around it--no long hours in the gym, no starving yourself, no grueling cardio that turns your

stomach. Imagine, just 12 weeks from now, being constantly complimented on how you look and asked what the heck you're doing to make such startling gains. Imagine enjoying the added benefits of high energy levels, no aches and pains, better spirits, and knowing that you're getting healthier every day. SPECIAL BONUS FOR READERS! With this book you'll also get a free 75-page bonus report from the author called "The Year One Challenge." In this bonus report, you'll learn exactly how to train, eat, and supplement to make maximum gains in your first year of training.
