Arc of Justice Apr 17 2021 An electrifying story of the sensational murder trial that divided a city and ignited the civil rights struggle In 1925, Detroit was a smoky swirl of jazz and speakeasies, assembly lines and fistfights. The advent of automobiles had brought workers from around the globe to compete for manufacturing jobs, and tensions often flared with the KKK in ascendance and violence rising. Ossian Sweet, a proud Negro doctor-grandson of a slave-had made the long climb from the ghetto to a home of his own in a previously all-white neighborhood. Yet just after his arrival, a mob gathered outside his house; suddenly, shots rang out: Sweet, or one of his defenders, had accidentally killed one of the whites threatening their lives and homes. And so it began-a chain of events that brought America's greatest attorney, Clarence Darrow, into the fray and transformed Sweet into a controversial symbol of equality. Historian Kevin Boyle weaves the police investigation and courtroom drama of Sweet's murder trial into an unforgettable tapestry of narrative history that documents the volatile America of the 1920s and movingly re-creates the Sweet family's journey from slavery through the Great Migration to the middle class. Ossian Sweet's story, so richly and poignantly captured here, is an epic tale of one man trapped by the battles of his era's changing times. Arc of Justice is the winner of the 2004 National Book Award for Nonfiction.

**Parenting Matters** Oct 12 2020 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

The Books of Jacob Jul 09 2020 “Just as awe-inspiring as the Nobel judges claimed.” – The Washington Post “Olga Tokarczuk is one of our greatest living fiction writers. . . This could well be a decade-defining book akin to Bolaño's 2666.” –AV Club “Sophisticated and ribald and brimming with folk wit. . . The comedy in this novel blends, as it does in life, with genuine tragedy.” –Dwight Garner, The New York Times The Nobel Prize-winner's richest, most sweeping and ambitious novel yet follows the comet-like rise and fall of a mysterious, messianic religious leader as he blazes his way across eighteenth-century Europe. In the mid-eighteenth century, as new ideas—and a new unrest—begin to sweep the Continent, a young Jew of mysterious origins arrives in a village in Poland. Before long, he has changed not only his name but his persona; visited by what seem to be ecstatic experiences, Jacob Frank casts a charismatic spell that attracts an increasingly fervent following. In the decade to come, Frank will traverse the Hapsburg and Ottoman empires with throngs of disciples in his thrall as he reinvents himself again and again, converts to Islam and then Catholicism, is pilloried as a heretic and revered as the Messiah, and wreaks havoc on the conventional order, Jewish and Christian alike, with

scandalous rumors of his sect's secret rituals and the spread of his increasingly iconoclastic beliefs. The story of Frank—a real historical figure around whom mystery and controversy swirl to this day—is the perfect canvas for the genius and unparalleled reach of Olga Tokarczuk. Narrated through the perspectives of his contemporaries—those who revere him, those who revile him, the friend who betrays him, the lone woman who sees him for what he is—*The Books of Jacob* captures a world on the cusp of precipitous change, searching for certainty and longing for transcendence. In a nod to books written in Hebrew, *The Books of Jacob* is paginated in reverse, beginning on p. 955 and ending on p. 1 - but read traditionally, front cover to back.

**Singapore, Singapura** May 19 2021 Modern Singapore is a miracle. Half a century ago it unwillingly became an independent nation, after it was thrown out of the Malay Federation. It was tiny, poor, almost devoid of resources, and in a hostile neighborhood. Now, this unlikely country is at the top of almost every global national index, from high wealth and low crime to superb education and much-envied stability. But have these achievements bred a dangerous sense of complacency among Singapore's people? Nicholas Walton walked across the entire country in one day, to grasp what it was that made Singapore tick, and to understand the challenges that it now faces. *Singapore, Singapura* teases out the island's story, from mercantilist Raffles and British colonial rule, through the war years, to independence and the building of the current miracle. There are challenges ahead, from public complacency and the constraints of authoritarian democracy to changing geographic realities and the difficulties of balancing migration in such a tiny state. Singapore's second half-century will be just as exacting as the one since independence—as Walton warns, talk of a "Singapore model" for our hyper-globalized world must face these realities.

*The Road* Jun 19 2021 NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food--and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's new novel, *The Passenger*.

*Lion City* Apr 05 2020 A compelling, illuminating and evocative history of Singapore—the world's most successful city-state. In 1965, Singapore's GDP per capita was on a par with Jordan. Now it has outstripped Japan. After the Second World War and a sudden rupture with newly formed Malaysia, Singapore found itself independent – and facing a crisis. It took the bloody-minded determination and vision of Lee Kuan Yew, its founding premier, to take a small island of diverse ethnic groups with a fragile economy and hostile

neighbours and meld it into Asia's first globalised city. Lion City examines the different faces of Singaporean life - from education and health to art, politics and demographic challenges - and reveals how in just half a century, Lee forged a country with a buoyant economy and distinctive identity. It explores the darker side of how this was achieved too; through authoritarian control that led to it being dubbed 'Disneyland with the death penalty'. Jeevan Vasagar, former Singapore correspondent for the Financial Times, masterfully takes us through the intricate history, present and future of this unique diamond-shaped island one degree north of the equator, where new and old have remained connected. Lion City is a personal, insightful and definitive guide to the city, and how its extraordinary rise is shaping East Asia and the rest of the world.

**The Daily Show (The Book)** Dec 26 2021 NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers—including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics—a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

**The Enforcement of Morals** Sep 30 2019 Are morals always relative? Are private actions--among consenting adults--always beyond the law? Or are there some behaviors which so weaken a society that common beliefs about right and wrong must be enforced to protect the common good? In opposing the decriminalization of private acts of homosexuality in Britain, Patrick Devlin maintained that not only is it reasonable to allow popular morality to influence lawmaking, it is imperative: ". . . For a society is not something that is kept together physically; it is held by the invisible bonds of common thought." Some sidestep this controversial issue by asserting that the law should not be used to enforce any morality. Others invoke John Stuart Mill's doctrine that the only purpose for laws governing any member of society is to prevent harm to others, chiefly physical harm. But, Devlin argued, while breaches of shared morality do not cause harm to other individuals in the way that murder and assault do, they do harm society by undermining its moral structure. Patrick Devlin (1905-1992) studied history and law at Cambridge University and became a successful lawyer.
