The New Advisor Guidebook Oct 23 2021 This is an exciting time to be an academic advisor—a time in which global recognition of the importance of advising is growing, research affirms the critical role advising plays in student success, and institutions of higher education increasingly view advising as integral to their missions and essential for improving the quality of students' educational experiences. It is essential that advisors provide knowledgeable, realistic counsel to the students in their charge. The New Advisor Guidebook helps advisors meet this challenge. The first and final chapters of the book identify the knowledge and skills advisors must master. These chapters present frameworks for setting and benchmarking self-development goals and for creating self-development plans. Each of the chapters in between focuses on foundational content: the basic terms, concepts, information, and skills advisors must learn in their first year and upon which they will build over the lengths of their careers. These chapters include strategies, questions, guidelines, examples, and case studies that give advisors the tools to apply this content in their work with students, from demonstrations of how student development theories might play out in advising sessions to questions advisors can ask to become aware of their biases and avoid making assumptions about students to a checklist for improving listening, interviewing, and referral skills. The book covers various ways in which advising is delivered: one-to-one, in groups, and online. The New Advisor Guidebook serves as an introduction to what advisors must know to do their jobs effectively. It pairs with *Academic Advising Approaches: Strategies That Teach Students to Make the Most of College*, also from NACADA, which presents the delivery strategies successful advisors can use to help students make the most of their college experience.

The Playwright's Guidebook Sep 02 2022 During the more than ten years that Stuart Spencer has taught playwriting, he has struggled to find an effective handbook for his courses. Although most of the currently popular guides contain useful ideas, they all suffer from the same problems: poor organization; quirky, idiosyncratic advice; and abstract theorizing on the nature of art. As a result, they fail to offer any concrete information or useful guidelines on how to construct a well-written play. Out of frustration, Spencer wrote his own. The result, *The Playwright's Guidebook*, is a concise and engaging handbook full of the kind of wisdom that comes naturally with experience. Spencer presents a coherent way of thinking about playwriting that addresses the important principles of structure, includes invaluable writing exercises that build upon one another, explores the creative process, and troubleshoots recurrent problems that many playwrights face.

The Supervisor's Guidebook Nov 11 2020 This guidebook will show how supervisors can ensure support staff to deliver quality services for people with disabilities whose quality of life is heavily dependent on how well those services are provided. Supervisors must ensure staff receive necessary training in their job duties, are actively supported to stay motivated to work proficiently and, at times, effectively assisted to improve their work performance. Supervisors have to overcome many challenges to fulfill these critical duties, often involving frequent changes in their staff work force and varying or limited resources. Complicating the job of staff supervisors is a lack of formal training necessary to perform their supervisory duties effectively. When supervisors do receive training in how to supervise staff work performance, the training is not always very useful. The training is frequently too general to equip supervisors with knowledge and skills to affect staff work performance on a routine basis. The training also is commonly based on unproven means of promoting quality staff performance, stemming from current fads or ideology that has little if any hard evidence to support the training content. Over the last five decades, a technology for supervising staff work performance in the human services has been evolving, derived from applied research conducted in many human service agencies. However, most supervisors have not had opportunities to become aware of these evidence-based means of fulfilling their supervisory duties. The purpose of The Supervisor's Guidebook is to describe the existing evidence-based approach to supervision. Description of the approach is supplemented with practical suggestions based on the authors' combined experience encompassing over 100 years of supervising staff performance in the human services. The intent is to provide supervisors with detailed information about tried and tested means of promoting diligent and proficient staff performance and to do so in a way that maximizes staff enjoyment with their work.

The Heart Reconnection Guidebook May 18 2021 This book is written for all who have suffered heartbreak. It is for those troubled by anxiety, depression, loss, grief, questioning their self-worth, caught in addiction or obsessive/compulsive behavior, and struggling to find meaning. While the list is broad in scope, it shares a common theme: The conditions reflect a broken relationship to the core of your being, your own 'healing heart, sacred heart.' For anyone who has struggled with the not enough—not good enough, not pretty enough, not smart enough, not strong enough—and the list goes on, this book is written with you in mind. With 300 years of collective wisdom, the path laid out by the authors is well road-tested and culled to reflect what has been—and continues to be—most effective in their own lives and the lives of those they have helped over the years. Through thought-provoking questions, meditations, self-reflection, and creative practices to choose from, the book offers a process of gradually uncovering the uniqueness of your own heart and soul. This multifaceted approach to healing opens a new path for greater awareness and well-being that lasts. Complementing the *The Heart Reconnection Guidebook* text is a comprehensive teacher's guide which presents the concept of Heart Reconnection Therapy (HRT) and walks the therapist or counselor through wellness-promoting activities, insightful discussions, and meditations related to the *The Heart Reconnection Guidebook* text. It is an excellent resource for working with individuals and also with groups. This book is based on the wisdom tradition rather than therapy in the usual sense, as it is based on each participant's self-exploration. There is no specific "agenda," meaning the book or the leader is not taking participants to a predetermined 'right' way to be, but rather creating a context for each person's encounter with their own truth and who they are in the core of their being. Readers and teachers alike will find the wisdom traditions offered within these pages life-changing, self-empowering, and community-building—all for the sake of greater happiness, increased awareness, and sustainable well-being.
