Four Lost Cities: A Secret History of the Urban Age Jul 01 2022 Named a Best Book of the Year by NPR and Science Friday A quest to explore some of the most spectacular ancient cities in human history—and figure out why people abandoned them. In *Four Lost Cities*, acclaimed science journalist Annalee Newitz takes readers on an entertaining and mind-bending adventure into the deep history of urban life. Investigating across the centuries and around the world, Newitz explores the rise and fall of four ancient cities, each the center of a sophisticated civilization: the Neolithic site of Çatalhöyük in Central Turkey, the Roman vacation town of Pompeii on Italy's southern coast, the medieval megacity of Angkor in Cambodia, and the indigenous metropolis Cahokia, which stood beside the Mississippi River where East St. Louis is today. Newitz travels to all four sites and investigates the cutting-edge research in archaeology, revealing the mix of environmental changes and political turmoil that doomed these ancient settlements. Tracing the early development of urban planning, Newitz also introduces us to the often anonymous workers—slaves, women, immigrants, and manual laborers—who built these cities and created monuments that lasted millennia. *Four Lost Cities* is a journey into the forgotten past, but, foreseeing a future in which the majority of people on Earth will be living in cities, it may also reveal something of our own fate.

Lost Cities Jul 09 2020 Ancient civilisations in Vietnam, the lost cities of the Amazon, the cities and towns of humankind have fought for space against the overwhelming power of nature. We think we've mastered it, but discoveries across the world show abandoned cities, their proud buildings now flooded, overtaken by the forests, nature taking back what once was its own, with the slow, relentlessness of time. But there are modern places too, towns built by corrupt local officials that were never occupied, amusement parks closed due to terrible tragedy, settlements sinking ineluctably into the mud, cities destroyed by radiation, these are the remnants of a generation, an entire society wiped from the earth, leaving only dismembered traces of memory. This exotic, powerful new book evokes the eerie, haunted places that retain small touches of humanity: a car with only one wheel, a battered doll, torn shirts on a washing line, a broken ferris wheel, all of them are shattered dreams that dwell now only in the imagination.

Lost Cities of Paraguay Dec 02 2019 For one brief shining hour there existed in the jungles of what is now Paraguay, Argentina and Brazil, a marvelous civilization that stands today only in near-forgotten though still eloquent ruins. In a fantastically short time, the talents of these previously untrained people flowered into the building of a remarkable "world" of beauty and grace almost beyond belief, a world Voltaire called "in some way the triumph of humanity" and Chesterton called "a Paradise in Paraguay". Were it not for the mute testimony of the delicately carved statues and the ruins of noble churches, the whole story might seem beyond belief.
