**Accredited Investor Crowdfunding: A Practical Guide for Technology Executives and Entrepreneurs** Oct 04 2022 The purpose of this book is to describe how an established technology company or an entrepreneur can use crowdfunding to raise capital from accredited investors. The book is targeted to small private technology companies, usually with less than 10 employees, and with more than 3 years of operational experience. Within the category of equity crowdfunding, there is a sub-category called "accredited investor" crowdfunding, characterized by investments made by investors who expect a profit, and generally will continue to support the enterprise over a longer period of time than the venture capitalist. Generally, the goal for the amount raised would be around \$1 million. As is the case for most of the Reg D capital raised in 2012, the use of the capital is for business growth and expansion, in such items as new staff, sales and marketing, and new capital equipment. From a technological point of view, the capital would generally be used to improve an existing product or service, called a sustaining innovation. The book covers the steps and executive or entrepreneur follows to prepare and execute a crowdfunding project. It provides a detailed analysis of the 10 accredited investor crowdfunding websites currently in operation. This book is not about donor-based crowdfunding, or its near cousin, non-accredited investor crowdfunding. This book is intended for CEOs of technology companies and technology entrepreneurs who would like to learn more about this new technique of raising capital.

**Dale and Appelbe's Pharmacy and Medicines Law** Jan 03 2020 This text is a comprehensive guide to law and ethics for pharmacy practice in the UK. Since publication of the first edition in 1976, it has become established as the standard student textbook and reference work on this subject in the UK. It includes information on the law that affects the practice of pharmacy in the UK, complete coverage of the pharmacy undergraduate and pre-registration syllabus and British law relating to medicines and poisons. This tenth edition has been substantially updated in connection with the advent of the GPhC and the new PLB, and revision of the Medicines Act.

**Catalog of Federal Domestic Assistance** Jun 27 2019 Identifies and describes specific government assistance opportunities such as loans, grants, counseling, and procurement contracts available under many agencies and programs.

**Owner's Guide to a Small Business Website** Aug 02 2022 Many small business owners or starters are fearful and ignorant of the technology and expense required for setting up a website. And yet they know it's an absolute essential. This straightforward, jargon-free book is the answer for all small business owners from one-person concerns upwards. It will tell you all you need to know about your website whether you are designing and building it yourself or employing a web design agency to do it for you. It includes - Content management systems and why you need one - Effective search engine optimisation - Ensuring your website works on all browsers and devices - How to integrate social media into your website - Complying with legal requirements and general web standards Also included is a jargon-busting glossary explaining the technical words likely to be encountered when talking to designers, plus useful references and links.

**Canada** Apr 05 2020 This report summarizes the anti-money laundering and combating the financing of terrorism measures in place in Canada. The Canadian authorities have a good understanding of most of Canada's money laundering and terrorism financing risks. Some financial intelligence and other relevant information are accessible by the Financial Transactions and Reports Analysis Centre of Canada (FINTRAC); law enforcement agencies have greater access. FINTRAC receives a wide range of information, which it uses adequately, but some factors limit the scope and depth of the analysis it is authorized to conduct.

**EU Distribution Law** Oct 31 2019 The new edition of EU Distribution Law, published six years after the previous edition, is concerned with the competition rules prohibiting anti-competitive agreements and behaviour affecting trade between Member States, and the special rules which protect commercial agents. Under EU law such anti-competitive agreements may be void and substantial fines imposed and liability in damages may result. To minimise their risk companies and their advisers must therefore understand the current rules and exemptions. In 2010 fully revised EU legislation and guidelines governing distribution and supply agreements came into effect. New features include an increased focus on powerful buyers and on internet sales, and there is also a more generous approach to resale price maintenance. [At the same time the special regime for the motor vehicle sector was significantly amended.] The European Commission, as well as national courts and competition authorities, actively apply EU competition rules in this area, so companies need to take the new rules fully into account. Furthermore, the continuing enlargement of the EU, most recently in 2007 to 27 Member States, and the ever-expanding case law of the European courts, means that EU law has an ever wider and more pronounced impact. This comprehensively rewritten and updated new edition of a well-known text combines expert commentary with clear, practical advice on the law affecting distribution agreements, exclusive supply, purchase agreements, franchising, agency and selective distribution. This book will be essential reading for commercial and competition lawyers, and the legal departments of manufacturers, suppliers, distributors and retailers currently trading or intending to trade within the European Union.

**A Businessperson's Guide to Federal Warranty Law** Apr 29 2022

**Practical Guide to Labelling and Advertising under Legal Metrology law in India** Dec 02 2019 About the book The book is a practical guide providing a pragmatic analysis of labelling and advertising aspects of the Legal Metrology Act, 2009 and the related laws. It covers the concepts as provided by the law coupled with the jurisprudence developed through the judgments of the Supreme Court as well as the High Courts under the present and erstwhile law relating to weights and measures. The book strives to act as a guide on the practical difficulties in application of the law and proactive measures which may be taken to ensure due compliances in terms of the Legal Metrology Law in India. The book will be of immense use for in-house counsels looking after regulatory compliances in a company, directors and the personnel looking after the sales and logistics of a business, e-commerce companies dealing in sale of packaged commodities, advocates and law students. Key features ? Analysis of structure and application of Legal Metrology Law on packages, advertisements and other modes of communication. ? Elaborate discussion on concepts of pre-packaged commodities, Industrial/institutional consumers, retail and wholesale packages, kits, multipurpose packages, transportation boxes etc. ? Covers disclosures to be made on different type of packages, time of declaration on imported and indigenous packages, format for printing of labels and practical difficulties faced at factory as well as dealership level. ? Understanding liability of company personnel, directors, e-commerce companies etc. on violation of the provisions of the Act. ? Guidance on general areas of focus of legal metrology authorities while making investigation/enquiry on business and litigation management thereafter. ? Conceptual guide aimed at a wide array of readers such as advocates, chartered accountants, in-house legal officers and law students. ? Ready reference table on common mistakes and best business practices along with sample labels. ? Contains upto-date relevant Acts and Rules related to labelling and advertising under Legal Metrology.

**Beat The Dealership Car Buying: A Salesmen's Guide for Consumers** May 31 2022

The 2012 Guide to Literary Agents is your essential resource for finding that literary agent—without fear of being scammed—and getting your book published. This new, updated edition of GLA includes: • Completely updated contact and submission information for literary agents who are looking for new clients • Writing and submission advice from more than 40 top literary agents • Informative articles on subjects such as writing a query letter, composing a book proposal, writing a novel synopsis, attending a writers conference, protecting your work, and more Includes an exclusive 60-minute FREE WEBINAR with Chuck Sambuchino that will teach you "Everything You Need to Know About Agents" "The Guide to Literary Agents contains a wealth of information and good advice, and was crucial in my successful search for an agent. I found a great agent and my book has now sold in 11 territories and counting." —Richard Harvell, *The Bells* "The Guide to Literary Agents was very useful to me when I was getting started. I always recommend GLA to writers." —Michael Wiley, *The Bad Kitty Lounge* and *The Last Striptease*

**Vertical Agreements in EU Competition Law** Mar 29 2022 Providing a detailed and practical analysis of the entire scope of the law relating to vertical agreements, including the new general block exemption regulations and the Vertical Guidelines, this book is an indispensable tool for all practitioners active in the drafting or reviewing of vertical agreements.

**The 21st CENTURY SCIENTIFIC METHOD™: Triangle to Triangle Pyramid to Solid Square Pyramid: A Stronger Scientific Method by Correct and Proper Application of the Trademark "Principles of BlockChain"™** Jan 15 2021 A textbook introducing you to the most groundbreaking improvement to the empirical scientific method in 400 years (1620-2020).

**ASEAN+3 Bond Market Guide 2018 Myanmar** Nov 12 2020 ASEAN+3 Bond Market Guide is a comprehensive explanation of the region's bond markets. It provides information such as the history, legal and regulatory framework, specific characteristics of the market, trading and transaction (including settlement systems), and other relevant information. The Bond Market Guide 2018 for Myanmar is an outcome of the support and contributions of ASEAN+3 Bond Market Forum members and experts, particularly from Myanmar.

**Building Material Dealer** Sep 22 2021

**SPIN® -Selling** Sep 10 2020 True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales. Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried in many of today's leading companies with dramatic improvements to their sales performance.

**The American Directory of Writer's Guidelines** May 07 2020 Perhaps the best-kept secret in the publishing industry is that many publishers--both periodical publishers and book publishers--make available writer's guidelines to assist would-be contributors. Written by the staff at each publishing house, these guidelines help writers target their submissions to the exact needs of the individual publisher. The American Directory of Writer's Guidelines is a compilation of the actual writer's guidelines for more than 1,600 publishers. A one-of-a-kind source to browse for article, short story, poetry and book ideas.

**Distribution Agreements Under the EC Competition Rules** Jun 07 2020 Professor Korah's short monographs on specific topics within EC Competition law are well known and widely used. This work follows the pattern of her previous books on group exemptions for technology transfer and parallel imports. It examines the regulation on vertical agreements, starting with a chapter on the economic background, before developing, in a series of chapters, a careful analysis of vertical agreements and all the relevant case law. A further chapter deals with agreements which do not come within the regulation, again paying careful attention to the case law.

**The Illicit Trade in Art and Antiquities** Mar 17 2021 This new text provides practical guidance on the modern law relating to cultural objects which have been stolen, looted or illegally exported. It explains how English criminal law principles, including money laundering measures, apply to those who deal in cultural objects in a domestic or international setting. It discusses the recovery of works of art and antiquities in the English courts where there are competing claims between private individuals, or between individuals and the UK Government or a foreign State. Significantly, this text also provides an exposition of the law where a British law enforcement agency, or a foreign law enforcement agency, is involved in the course of criminal or civil proceedings in an English court. The growth of relevant international instruments, which include not only those devoted to the protection of mankind's cultural heritage but also those concerned with money laundering and serious organised crime, provide a backdrop to this discussion. The UK's ratification of the UNESCO Convention on Means of Prohibiting and Preventing the Illicit Import, Export and Transfer of Ownership of Cultural Property 1970 in 2002 is considered. The problems posed in attempting to curb trafficking in art and antiquities are explored and the effectiveness of the current law is analysed.

**Antitrust Analysis of Online Sales Platforms & Copyright Limitations and Exceptions** Jul 09 2020 This book gathers international and national reports from across the globe on key questions in the field of antitrust and intellectual property. The first part discusses the application of competition law to online sales platforms, which is increasingly a focus for anti-trust authorities around the world. A detailed international report explores which are the major challenges for competition law generated by the growth of online platforms. It provides an excellent comparative study of this complex and challenging subject. The second part of the book gathers contributions from various jurisdictions on the topic "To what extent do current exclusions and limitations to copyright strike a fair balance between the rights of owners and fair use by private individuals and others?" This section presents an international report, which offers an unparalleled comparative analysis of this topic, bringing together common themes and contrasting the various national provisions dealing with exceptions to copyright, amongst other things. The book also includes the resolutions passed by the General Assembly of the International League of Competition Law (LIDC) following a debate on each of these topics, which include proposed solutions and recommendations. The LIDC is a long-standing international association that focuses on the interface between competition law and intellectual property law, including unfair competition issues.

**Origin of a Specie™** Dec 14 2020 Welcome to the public disclosure of the world's first body of required reading for ALL duly appointed, lawfully elected or employed persons in public office or in private enterprise, as leaders; legislators, policymakers; regulators; technical experts; scientists; members of Top Management; global professional liability insurers including corporate risk insurers; legal professionals; law enforcement; and business persons; promoters; consultants; investors; students - in at least 119 countries - who seek primary source, traceable, verifiable and immutable knowledge on the origins, commercialization, litigation-testing and National and International Standardization of the "Principles of 'BlockChain'" and related concept system subject matter: including but not limited to electronic peer-to-peer finance (non-bank, non-institutional, non-syndicated, non-regulated or regulatory exempt, free trading; (P2P)/Private/Crypto/Secret/Shadow) utility tokens, securities tokens. This global public disclosure is designed to be your practical and scholarly, primary source knowledge commencing from at least as early as 14-August-2001 until present day (September 2019 - or as of latest update) on the origin of the "Principles of 'BlockChain'" and related concept system matter; and is designed to be relied upon as a legislative-, regulatory-, public policy-making-, academic-, business-, investment-, professional-, technical-, and scientific reference, now and into the future. As an electronic - (intellectual property token; trademark brand: MQCC INPUT™) - format encyclopedic authoritative reference, this First Edition will be continually improved until the next edition is published. If you are a lawfully elected or duly appointed public official (Head of State, Senator, Minister, Legislator, Policy Maker, Regulator); lawfully elected, duly appointed or employed member of a regulated, reporting or private organization in the role of Top Management (Chief Executive Officer (CEO)- level or Board of Director-level) member; a legal professional; an professional liability insurance/organization risk underwriter; an investor, academic or interested person: before you spend any of your personal money (or any more personal money) and your valuable personal time on 'BlockChain'-anything or 'crypto'-anything; put this electronic reference [intellectual property utility token (distinctively known as the MQCC™-registered, global trademark: MQCC INPUT™)] in your personal library and learn directly from the person (Author) who: first identified and commercialized (starting at least as early as April 9, 2005) a globally accessible, peer-to-peer electronic finance system; (cryptofinancial network), first registered (starting at least as early as May 9, 2008) a subordinate Quality Management System to ISO 9001:2000; ISO 9001:2008 and the current risk-based ISO 9001:2015 in order to publicly prove to "the world", that the globally accessible system-network methods and products are better, safer, more efficient and in order to establish at-a-glance (prima facie) levels of trust - at a global scale; Over the past 19 years, has personally introduced and educated the following classes of people on the origins and over-14 years of successfully commercialized, National and International consensus-standards-based, application of the overarching concept system including: the "Principles of 'BlockChain'"; utility tokens, securities tokens, conformity science: > public officials (Ministers, Legislators, Policy Makers, Regulators) > lawyers employed by law enforcement agencies > lawyers employed by public market securities regulators > CEO's, Executive Officers, members of Top Management of regulated, reporting or private business organizations > retail customers (investors and investees) > and more Developed, what is today, the world's most trusted and trustworthy global system-network of its kind that, for over 12 years, meets and exceeds United States (US) Department of Defense (DoD), General Services Administration (GSA), and the National Aeronautics and Space Administration (NASA) Higher-level contract quality requirements and integrates elements of the globally trusted US National Institute of Standards and Technology (NIST) Framework Core for Improving Critical Infrastructure Cybersecurity. This encyclopedic authoritative reference takes you from the start, from at least as early as 14-August-2001 to Present day (September 2019). Now that this compendium is published, if any consultant or business promoter, anywhere in the world (at least in 119 countries where ISO 9000 is considered a National Standard class of family of standards) on matters claims to know what he or she is talking about and has not proven to you that they have read this important work of public disclosure, then they really don't know scientific-based, historically-accurate, information timeline. -> Learn how the Author has been telling CryptoExchange CEO's to learn the MQCC Standards™, so they can make their cryptoexchanges better, safer and more efficient for the inexperienced global public and regulatory community -- months (and years) before sad events occurred when some exchanges suffered catastrophic shutdowns because Top Management did not have and still do not have, the historically proven systems that they need to assure better, safer and more efficient cryptofinancial operations; which MQCC developed. -> Learn how some CEO's or Top Management of Banks and Public Securities Exchanges have been explained that an over 14 year-old fully functional system built on the "Principles of 'BlockChain'" exists and will prevent corporate shareholder financial loss caused by risk due to uncertainty created by nonconformity events like mortgage fraud and ineffective public (reporting securities issuer) company operators. -> Learn how a proven regulatory-integrated framework of co-existence between public securities regulators and non-public securities regulators and regulatees has evolved since at least as early as August 14, 2001. -> Learn how the term Bungay Unification of Quantum Processes Algorithm also represented as the "Principles of 'BlockChain'" was abstracted from observation of the originating object or phenomenon. -> Learn how to find out who is a competent consultant and who is not a competent consultant on matters related to the "Principles of 'BlockChain'" -> Learn how to the global community has misunderstood the origins and wasted (in some cases, literally) millions of dollars in ideas that are "BlockChain-in-Name-Only". -> Learn how "The Principles of 'BlockChain'" have nothing to do with computer programming language C++; which was used to program the bitcoin, alpha-state, experimental software program. -> Learn about the discovery and commercialization of SYSTEMS-LEVEL Artificial Intelligence (SL) by the yours sincerely. -> Learn how commercially available suite of systems, technology, services and products work for any size organization: 1 owner-operator to an organization with 1,000,000 million employees and more. This encyclopedic authoritative reference will be your best investment in this subject matter, ever. More about this encyclopedic authoritative reference The "Principles of 'BlockChain'" were naturally discovered out of a need to create a governance and operating system for the world's first "peer-to-peer (P2P) electronic finance system-network" for the trade in non-bank, non-institutional, non-syndicated, non-regulated or regulatory exempt, free trading securities and related financial instruments; commencing from at least as early as August 14, 2001. As a reminder, before you invest or spend any money on "BlockChain"-anything, or "crypto"-anything; learn from from the person who first discovered and then commercialized it, since at least as early as April 9, 2005 at www.privateender.org; a person who also happens to be the world's leading authority on National and International Standards-Class NISC™ (in at least 119 countries), Quality Management System-integrated, regulatory-integrated, litigation-tested, BlockChain-based Systems, Technology, Services and Products. WARNING: If you have any question of comprehension or understanding, seek professional counsel before you - another friendly reminder - spend even one more unit of fiat currency ("real" money) on any "BlockChain" or "Crypto" project. Ask your local legislator, lawyer or, in the future your local conformity scientist and PROFESSIONAL BLOCKCHAINEER™/®. Remember this authoritative encyclopedic reference is written by the person who developed the world's first commercialized an application of the "Principles of 'BlockChain'" in Commerce for a peer-to-peer electronic finance system. A body of transmundane knowledge encompassing a variety of knowledge disciplines. Having built "it" first and having built "it" right, means - despite being the CEO of a commercial finance sector organization - the Author is more or less "under the radar" from the scrutiny of the general public due to successful application of the sub-principle "effective disintermediation"; as such, nobody on Earth has really been afforded an opportunity to "look behind the history" - in a single, primary source compendium - to see how delicate, comprehensive, complex and beneficial conformity science and the "Principles of 'BlockChain'", truly are. Not to mention the painstaking diligent years of maintaining the momentum. If you, your family, your company or your country is even "thinking" about investing limited sovereign resources and valuable time into the "Principles of 'BlockChain'", "crypto"-anything, "token"-anything and related matters (or want to be an authority on the subject), then learn about its origins, its regulatory-scrutinized, litigation-tested commercial applications of the present-day, and its future. Especially if you are (or will be, one day) employed as a Head of State, Legislator, Policymaker, Regulator, Lawyer, member of "Top Management" (Chief Executive Officer (CEO) or Board Member of a regulated or non-regulated Organization, Academic (student, undergraduate, graduate, doctoral, post-doctoral research), Journalist, Professional Liability Insurer, Investor, Head of a Family Office; or, if you are your normal, everyday person, just curious about the world. This work of scientific-commercial-regulatory-financial literature is both a public service and an introduction to the foundational body of knowledge that led to the discovery of the "Principles of 'BlockChain'", the birth of binary digit non-bank, non-institutional, non-syndicated, non-regulated or regulatory exempt, free trading securities and related financial instruments; also known as Peer-to-Peer (P2P)/Private/Crypto/Secret/Shadow securities and related financial instruments; Binary Digit Financial Instruments or Digital Assets and the Discovery of Conformity Science. It is the foundation of evolutionary digital commerce (a new field of science for the study of the evolutionary (revolutionary, perhaps?) processes related to the discovery of the "Principles of 'BlockChain'" and production of binary digit financial instruments (digital assets), systems, technologies, services and products. The body of evidence - as you would expect from the creator of a system built on principles that creates trust through transparency, immutability, validation, traceability and verifiability - is itself, traceable, verifiable, immutable and transparent. You will not find this content anywhere else. MQCC is the point of origination. The Bungay Unification of Quantum Processes Algorithm: when Quantum Unification Theory met Commerce. A revolutionary paradigm shift in how commerce is transacted, allowing for realizable quality, conformity and control goals to be achieved; resulting in long term, sustainable inflows of money. And lots of it. If you agree that the "Principles of 'BlockChain'" offer the utmost level of immutable data (knowledge) veracity, validity, verifiability, transparency, proof and truth; then you will understand the non-trivial implications of this history of the discovery of the "Principles of 'BlockChain'". Origin of a Specie™; an authoritative encyclopedic reference that only the discoverer of the world's first globally accessible, regulatory-recognized, regulatory-integrated and regulatory-trusted, commercialized "Principles of 'BlockChain'"-based system for the trade in non-bank, non-institutional, non-syndicated, non-regulated or regulatory exempt, free trading securities and related financial instruments; also known as Peer-to-Peer (P2P)/Private/Crypto/Secret/Shadow securities and related financial instruments (Binary Digit Utility Tokens for Digital Assets), could write. ?

**General Principles of EU Law and the EU Digital Order** Nov 05 2022 Digitalization of societies has important ramifications for citizens and businesses. The digital landscape is rapidly changing, whereas at the same time there are growing concerns about how market access in the EU's digital market as well as fundamental rights can be sufficiently safeguarded in the shadow of 'big data' and algorithms. This timely and important book presents expert analyses of how digitalization raises questions of the future role for general principles of European Union (EU) law, including the foundational principles of the EU's fundamental economic freedoms and EU competition rules. Examining a number of issues revolving around the internal market, the digital single market, competition law, intellectual property, data protection, democracy and the rule of law, the contributors provide deeply informed insights of the challenges as to: effects of the technological disruption on the doctrine of general principles; the resilience of general principles in the digital society; the need to rely on new general principles in the digital society; the realization of the digital single market; the safeguarding of fundamental rights and the rule of law. The contributors are highly esteemed scholars from major European universities. A common theme is the need for judicial evolution of EU fundamental rights law in the digital era, alongside penetrating analyses of

recent Court of Justice of the European Union case law on the impact of digitalization. Dealing as it does with an area of European law of particular complexity and rapidly growing importance, the anthology provides insights and knowledge about the ways in which digitalization is rapidly changing EU law. Are general principles of EU law as developed in an 'analogue world' sufficiently resilient to withstand the rapid and often disruptive developments taking place in the digital marketplace? The fresh look at the concept of 'general principles' taken by the various contributors helps to clarify the actual application in EU law in areas related to the ongoing digitalization of our society. It will be greatly appreciated by practitioners, policymakers and academics active in any of the many fields of law affected by the digital revolution.

**The Sundance Writer: A Rhetoric, Reader, and Research Guide, Brief** May 19 2021 THE SUNDANCE WRITER, Brief Fifth Edition, provides students with essential skills needed for writing in college and beyond, including critical thinking and reading, as well as writing for academic and workplace audiences. **Governance, Compliance and Supervision in the Capital Markets, + Website** Aug 22 2021 The definitive guide to capital markets regulatory compliance Governance, Compliance, and Supervision in the Capital Markets demystifies the regulatory environment, providing a practical, flexible roadmap for compliance. Banks and financial services firms are under heavy regulatory scrutiny, and must implement comprehensive controls to comply with new rules that are changing the way they conduct business. This book provides a way forward, with clear, actionable guidance that strengthens governance at all levels, and balances supervisory and compliance requirements with the need to do business. From regulatory schemes to individual roles and responsibilities, this invaluable guide details the most pressing issues in today's financial services organizations, and provides expert advice. The ancillary website provides additional tools and guidance, including checklists, required reading, and sample exercises that help strengthen understanding and ease real-world implementation. Providing both a broad overview of governance, compliance, and supervision, as well as detailed guidance on application, this book presents a solid framework for firms seeking a practical approach to meeting the new requirements. Understand the importance of governance and "Tone at the Top" Distinguish the roles of compliance and supervision within a financial services organization Delve into the regulatory scheme applicable to broker dealers, banks, and investment advisors Examine the risks and consequences of inadequate supervision at the organizational or individual level The capital markets regulatory environment is complex and ever-evolving, yet compliance is mandatory. A solid understanding of regulatory structure is critical, but must also be accompanied by a practical strategy for effective implementation. Governance, Compliance, and Supervision in the Capital Markets provides both, enabling today's banks and financial services firms to get back on track and get back to business.

**American Directory of Writer's Guidelines** Jul 29 2019 Perhaps the best-kept secret in the publishing industry is that many publishers—both periodical publishers and book publishers—make available writer's guidelines to assist would-be contributors. Written by the staff at each publishing house, these guidelines help writers target their submissions to the exact needs of the individual publisher. The American Directory of Writer's Guidelines is a compilation of the actual writer's guidelines for more than 1,700 publishers. A one-of-a-kind source to browse for article, short story, poetry and book ideas.
