50 Cents a Pattern: Jelly Roll Scraps Nov 12 2020 Quilters and patchworkers all over the world are familiar with Jelly Rolls bundles of coordinating fabrics manufactured by Moda, precut into useful 2½in strips. But what do you do with all those left-over pieces once you've made your patchwork quilt? Instead of assigning them to the waste bin, save them up and you will soon have enough to stitch at least one of the fun projects in this book. Using simple sewing, quilting and patchwork techniques, there are 20 projects to choose from, including stylish cushions, pretty little bags, and a handy pincushionall of which are quick and easy to make on-the-go, and each pattern costing only 50 cents. If you don't use Jelly Rolls, any odd scraps of fabric can be used insteadjust cut them to size and away you go! All the templates are provided as well as some basic tips and techniques, and each project is accompanied by a list of the materials and tools you need, and clear, step-by-step instructions.

Ceramics for Kids May 31 2022 Provides an introduction to clay and pottery, plus instructions for twenty-five projects using various methods, such as a pinch-and-coil Japanese tea bowl and a press-molded hanging bird bath.

Patti Smith Apr 05 2020 In Patti Smith: America's Punk Rock Rhapsodist, musician and historian Eric Wendell delves into the volatile mix of religious upbringing and musical and literary influences that gave shape to Smith's lyrics, music, and artistic output. Wendell explores how Smith's androgynous stage presence pulled the various societal triggers, adding a new layer of meaning to popular music performance. Songwriter and singer, performance artist and poet, Smith created work that drew together biography, history, and music into a powerful collage of an artist who shaped a generation of musicians.

The Norris Project Jul 29 2019 This report is published for the purpose of giving to the engineering profession the important and useful facts about the planning and construction of the Norris Dam and Reservoir on the Clinch River, in eastern Tennessee, by the Tennessee Valley Authority, an agency of the United States Government.

Making It Happen Oct 31 2019 Making It Happen: A Non-Technical Guide to Project Management provides a fresh and clear approach to project management. Written in the form of a novel, it covers the basics of project management in a friendly, interesting, and memorable way. Will Campbell, a reasonably competent middle manager, is suddenly thrust into managing a high-profile project that could make or break his career. With no project management experience, and armed only with the guidance of his eccentric mentor, Martha, Will learns the hard way. As Will navigates the rough seas of company politics, treacherous competition, and a project swirling out of control, he narrowly evades many pitfalls, and masters some indispensable project management tools along the way. Against the backdrop of this personal drama, a simple, rational approach to project management unfolds. Will's ability to grasp these principles is the key to his survival, and could be the key to yours. Making It Happen enables the reader to transform risky, real-life situations into success. Provides a simple, non-technical approach, useful to any business person involved in teams or managing projects. Offers practical tools and principles that will make any project a success: from office moves to product roll-outs, systems implementations to training program delivery, and everything in between. Boxes, definitions, and charts highlight key points and practical project management tips.

100 Activities for Teaching Research Methods Mar 17 2021 A sourcebook of exercises, games, scenarios and role plays, this practical, user-friendly guide provides a complete and valuable resource for research methods tutors, teachers and lecturers. Developed to complement and enhance existing course materials, the 100 ready-to-use activities encourage innovative and engaging classroom practice in seven areas: finding and using sources of information planning a research project conducting research using and analyzing data disseminating results acting ethically developing deeper research skills. Each of the activities is divided into a section on tutor notes and student handouts. Tutor notes contain clear guidance about the purpose, level and type of activity, along with a range of discussion notes that signpost key issues and research insights. Important terms, related activities and further reading suggestions are also included. Not only does the A4 format make the student handouts easy to photocopy, they are also available to download and print directly from the book's companion website for easy distribution in class.

Roll of Thunder, Hear My Cry (Puffin Modern Classics) Oct 04 2022 Winner of the Newbery Medal, this remarkably moving novel has impressed the hearts and minds of millions of readers. Set in Mississippi at the height of the Depression, this is the story of one family's struggle to maintain their integrity, pride, and independence in the face of racism

and social injustice. And it is also Cassie's story—Cassie Logan, an independent girl who discovers over the course of an important year why having land of their own is so crucial to the Logan family, even as she learns to draw strength from her own sense of dignity and self-respect. * "[A] vivid story.... Entirely through its own internal development, the novel shows the rich inner rewards of black pride, love, and independence."—Booklist, starred review

Building Google Cloud Platform Solutions Feb 02 2020 Build cost-effective and robust cloud

solutions with Google Cloud Platform (GCP) using these simple and practical recipes Key FeaturesExplore the various service offerings of the GCPHost a Python application on Google Compute EngineSecurely maintain application states with Cloud Storage, Datastore, and BigtableBook Description GCP is a cloud computing platform with a wide range of products and services that enable you to build and deploy cloud-hosted applications. This Learning Path will guide you in using GCP and designing, deploying, and managing applications on Google Cloud. You will get started by learning how to use App Engine to access Google's scalable hosting and build software that runs on this framework. With the help of Google Compute Engine, you'll be able to host your workload on virtual machine instances. The later chapters will help you to explore ways to implement authentication and security, Cloud APIs, and command-line and deployment management. As you hone your skills, you'll understand how to integrate your new applications with various data solutions on GCP, including Cloud SQL, Bigtable, and Cloud Storage. Following this, the book will teach you how to streamline your workflow with tools, including Source Repositories, Container Builder, and Stackdriver. You'll also understand how to deploy and debug services with IntelliJ, implement continuous delivery pipelines, and configure robust monitoring and alerts for your production systems. By the end of this Learning Path, you'll be well versed with GCP's development tools and be able to develop, deploy, and manage highly scalable and reliable applications. This Learning Path includes content from the following Packt products: Google Cloud Platform for Developers Ted Hunter and Steven PorterGoogle Cloud Platform Cookbook by Legorie Rajan PSWhat you will learnHost an application using Google Cloud FunctionsMigrate a MySQL database to Cloud SpannerConfigure a network for a highly available application on GCPLearn simple image processing using Storage and Cloud FunctionsAutomate security checks using Policy ScannerDeploy and run services on App Engine and Container EngineMinimize downtime and mitigate issues with Stackdriver Monitoring and DebuggerIntegrate with big data solutions, including BigQuery, Dataflow, and Pub/SubWho this book is for This Learning Path is for IT professionals, engineers, and developers who want to implement Google Cloud in their organizations. Administrators and architects planning to make their organization more efficient with Google Cloud will also find this Learning Path useful. Basic understanding of GCP and its services is a must.

Roll with the Times, or the Times Roll Over You Feb 13 2021 Over one hundred presentations from the 36th annual Charleston Library Conference (held November 1-5, 2016) are included in this annual proceedings volume. Major themes of the meeting included data visualization, streaming video, analysis and assessment, demand-driven acquisition, and open access publishing. While the Charleston meeting remains a core one for acquisitions librarians in dialog with publishers and vendors, the breadth of coverage of this volume reflects the fact that this conference is now one of the major venues for leaders in the publishing and library communities to shape strategy and prepare for the future. Almost 2,000 delegates attended the 2016 meeting, ranging from the staff of small public library systems to the CEOs of major corporations. This fully indexed, copyedited volume provides a rich source for the latest evidence-based research and lessons from practice in a range of information science fields. Contributors comprise leaders in the library, publishing, and vendor communities.

Information Technology Project Management Jun 19 2021 The 5th Edition of Jack Marchewka's Information Technology Project Management focuses on how to create measurable organizational value (MOV) through IT projects. The author uses the concept of MOV, combined with his own research, to create a solid foundation for making decisions throughout the project's lifecycle. The book's integration of project management and IT concepts provides students with the tools and techniques they need to develop in this field.

Jelly Roll Jam Oct 12 2020 Are Jelly Rolls your jam? If you're like most quilters, you love those bundles of precut 2-1/2" strips that bring a ribbon of sweetness from every piece in a fabric collection--yet you sometimes wonder what to do with them. Here's your answer! Barb Groves and Mary Jacobson of Me and My Sister Designs are experts at creating quick-and-easy quilts using precuts, and now they share nine of their favorite Jelly Roll patterns. Discover inspiring designs, perfect for throws, baby quilts, graduation gifts, and more. Whether you're a beginner or an experienced quilter, you're sure to enjoy this fresh batch of patterns for your favorite Jelly Rolls!

I Am Not a Toilet Roll Sep 30 2019 Recycle empty loo rolls into fantastic craft creations with this hilarious DIY book. Follow step-by-step guides and handy cutouts to make a shark, a bat, an elephant, a rocket, a pirate, a unicorn, a ninja, a gingerbread man, a castle and a mermaid. The projects in this book are fun for boys and girls alike and each project requires between one and eight toilet rolls, allowing you to make some models right away or wait until you've collected enough rolls. Alternating picture-book style spreads quirkily narrated by the projects themselves with step-by-step instructions on how to create them, this book will inspire kids and parents to look twice at the humble toilet roll.

Weld Like a Pro Jan 03 2020 Welding is an art and skill that's essential for automotive fabrication, repair, and vehicle upgrades, but it is also an important skill for countless household projects and industries. Some books show merely basic welding techniques with steel and cast iron. But this isn't your run-of-the-mill introductory welding book. In this revised edition of the previous title, Advanced Automotive Welding, Jerry Uttrachi, past president of

the American Welding Society, does show you how to perform basic welding procedures with steel and cast iron. But he also reveals advanced welding techniques and the use of aluminum, titanium, magnesium, stainless steel, and other specialty materials. Projects and techniques in this book focus on automotive applications but can also be used for welding a bicycle frame, welding a steel grill, or repairing the frame for a garden bench. TIG, oxyacetylene, arc, and wire-feed welding processes are covered, but special coverage is provided for stick and MIG. Welding butt and V-joints is explained plus welding more complex joints, including J- and U-joints, is also shown. Step-by-step instruction and exceptional detail give you the necessary information to tackle and complete complex welding jobs. Popular automotive projects, such as welding an electric fuel pump into an aluminum tank, repairing chromemoly suspension arms, and welding in floorpans, are thoroughly covered. And when it comes to repairing household items, specific projects such as repairing and modifying the steel tubing on an exercise machine, repairing a decorative bench, and more are covered. Rather than take a project to a shop, you can now do the job at home. Whether you're new to welding or a veteran welder looking to work with special materials or involved in a special project, you will find indispensable information within the pages of this book. Now you can confidently weld with steel, cast iron, aluminum, anodized steel, titanium, magnesium, and other specialty metals.
